EVENT TIMING

We are happy to continue our partnership with Crossroads Events for official RFID chip timing at the start and finish of this year's event.

Crossroads Events will use their state of the art Innovative Timing Systems' Jaguar system to time our events. No need to worry about tripping on finish line mats as Jaguar uses antennas that are mounted out of the way of participants and interacts with your RFID chips to record your time. They will provide accurate results as soon as a participant crosses the finish line which will be viewable via the monitor they provide. Crossroad Events will provide the following to ensure our event timing is as professional as possible:

- Start & Finish Line Arch
 - Jaguar Timing System
 - Disposable Timing Chips - For running
